

Wainwright M.D. Council Holds Regular Session

The Council of the MD of Wainwright No. 61 met in the Council Room of the MD on Thursday, October 13, 1949 at 9 o'clock in the forenoon.

Councillors Dallyn, Castle, Sutherland, Taylor, Smaile, Arthur and Archibald present.

Reeve Sutherland in the Chair. Castle—that the Minutes of September 1949, be accepted as written. Cd.

Arthur—that Ch. Smaile be the Deputy Reeve for the next six months. Cd.

Finance
Smaile—that the accounts as recommended by the Finance Committee and subsequent accounts rendered, amounting to \$47,370.32 be passed and paid. Cd.

Ch. Sutherland reported his interview with the Wainwright Municipal Hospital board re: the Account of Gilbert Casper, son of Harlan Casper, no action by the Council.

Correspondence from the Wainwright Clinic re: Mrs. Z. Newell read and noted.

Secretary advised that Title No. 50-Z-128, Part SW 17-43-2-4, 4 acres for the Ribstone Cemetery had been received from the Land Titles Office.

Dallyn—that the Secretary write the Ribstone Community Association reference to their offer of February 4, 1947 reference to the Ribstone Cemetery. Cd.

Municipal Property
Castle—that any Municipal owned lands within the boundaries of any duly constituted Grazing Association as provided by the Association and the said lease is in good standing be withheld from sale under the provisions of the Tax Recovery Act.

Correspondence from Buffalo Park Grazing Association asking that they be given first refusal in the purchase of Municipal owned lands within their area, read and noted.

Dallyn—that on the representation of the Dunn Lake Grazing Association, that the Municipal owned lands being the SE 23-SW 24-43-2 North of the Railway and the E½ and SW 27, the SE 28-43-3 be leased to the said Grazing Association as from March 1, 1950 at the same rate per acre as the Provincial Government grazing policy each year, the 1950 rental shall be seven cents per acre in advance. Cd.

Dallyn—that the Secretary write the Crest Hill Grazing Association asking for their boundary lines and what Municipal owned lands they require. Cd.

Dallyn—that this Council approve the sub-lease of Grazing Lease of Phillip Collette to E. Courchesne being the N½ 13 and NE 14 and the SE 24-42-1-4, until March 1, 1950 but Mr. Courchesne will not have any priority to re-lease when said lease expires. Cd.

Arthur—that the Secretary seek information reference to the "Reservation of Gravel" in the name of the MD of Wainwright No. 61 on titles issued to purchasers from the MD. Cd.

Sutherland—that the report of Police Constable Mockford, Clear Lake area for 1949, be accepted and report filed. Cd.

Agricultural Service Board
Smaile—that as the matter of the NW 21-44-5-4 has been carefully considered by this Council, that a cheque for No. 842.45 be drawn in favour of the Dept. of

Days Gone By

From the Roseberry Tatler

Mrs. Watkinson recalled many memories of the pioneer days as we leaped through the yellowed pages of the Tatler. Her blue eyes twinkled at the memory of dances held at Roseberry. It was not permissible to move the school desks so they tripped the light fantastic up the aisles between, to the music of a tin whistle played by Mr. Jack Agar. There was a light-heartedness about those early days when the country was new and "Next Year" with all its promises seemed to be just around the corner.

The Excelsior Literary Society had some fine programs. This is how things were lined up at the beginning of 1913, Jan. 1. A Night with Burns, Jan. 16 Debate—open. Jan. 29—Shakespeare, Feb. 12—School and Miscellaneous, Feb. 26—Debate, Monarchy vs. Republic, March 12—Open. March 26—Debate. They had ads in the Tatler too.

WANTED—Boy, partly outside and partly behind his counter. Apply 536 Main St. Irma.

WIDOW in comfortable circumstances wishes to marry two sons. Box 782, Jarow.

Annual Sale on "Don't go elsewhere to be cheated, come in here." Co-op Store, Irma. Unquote. Its the Co-op of 1913 the above refers to.

LOST—near Strawberry Plains an umbrella belonging to a gentleman with a bent rib. Reward. Apply Box 36, Clark Manor.

WANTED—an airy bedroom for a gentleman 22 ft. long and 11 ft. wide. Apply Tripp's Livery Barn, Irma.

Mr. Brown, furrier, begs to announce that he will make cloaks, capes, etc., for ladies out of their own skins.

W.I. News

The November meeting of the Irma W.I. will be held on Thursday, November 3 at the home of Mrs. Glasgow, hostesses, Mrs. E. Rae and Mrs. Targett. Refreshments will be served. Mrs. H. Barber, Program. Mrs. McFarland, Roll Call, My Pet Annoyance.

Will members please note the change back to afternoon meetings.

ST. MARY'S CHURCH NOTES
There will be Celebration of Holy Communion in St. Mary's Church on Sunday, October 30 at 2:30 p.m.

Donald Gunn Again Heads Local Teachers

On Friday morning, October 21, at the Vermilion teachers' convention, the Wainwright local, Alberta Teachers' Association held its annual meeting. D. H. Gunn of Irma was re-elected President. New officers include A. F. McCrimmon of Chauvin as vice-president, L. B. Adams of Wainwright as Secretary-Treasurer, and I. S. Reeds, Irma, and J. Woloshyn, Edgerton, as councillors. Mr. Gunn again heads the salary negotiation committee. On that committee he will be assisted by G. C. Welsh of Edgerton and Chas. Cromie of Wainwright.

This year's convention surpassed all previous ones in the matter of attendance. Over 200 teachers were present; 55 out of a possible 67 attended from the Wainwright Division and Separate Schools. Vermilion and Vegreville Divisions also participated.

Highlights of the convention were the addresses on Friday afternoon by the principal speakers, Dr. George Selke, Chancellor of the University of Montana, and Dr. W. H. Swift, Alberta Deputy Minister of Education, the banquet on Thursday evening, addressed by Dr. Selke and the group discussions. Dr. Selke is evidently an administrator rather than an educator. His addresses contained little that could be applied in a classroom, but they were amusing, inspiring, and, in places, philosophical. He was typical of the American speakers at teachers' convention—he was primarily an

Glen-Coa Gleanings

We are sorry to report that Mr. Olaf Lovig is seriously ill in Wainwright hospital.

Last week-end Mr. and Mrs. T. Larson and family accompanied by Mrs. Withall, Joan, Lilly and Francis motored to Gynne to visit Mr. and Mrs. Stan Berg there.

More holidayers last week-end were Mr. and Mrs. B. Gulbraa and family who motored to Stettler and other points to visit relatives.

Those who were home were the following: Miss Solveig Steffensen and Gordon Hollingren from Camrose; also Curtis Satre and a friend, Johan Heeshe from Saskatoon. They were all able to be at the Luther League Pie Social held at Glenholm School on Saturday evening. A very fine time of fellowship and fun was had by all present.

Mr. Carl Lindquist left this week to make his home in Edmonton for the winter months.

Mr. and Mrs. M. Reitan drove to Camrose last Monday for the opening session of the Canadian Lutheran Bible Institute. Misses Betty Mackay and Lilly Nelson accompanied them.

Mr. and Mrs. N. Fluevog left last Tuesday for a trip to the West Coast.

Mr. and Mrs. P. Spring have gone to Bow Island to visit Mr. Spring's sister there.

Congratulations to Mr. and Mrs. Sivert Nelson on their new Dodge. Miss Arlene Steffensen has left for Grande Prairie to take up her duties as District Home Economist. The best wishes of the community go with her.

Southern Sayings

Mr. and Mrs. Otto Setter and family and Mr. Sam Szoke motored to Edmonton last week.

Mr. and Mrs. Jackson is visiting in Hardisty this week and Albert Jackson has accepted a position in Galt's Garage in Hardisty.

Mr. and Mrs. Art Ewert and family, Ed Veer and Jerry Funk all motored to Red Deer and other Southern towns last week.

Mrs. Wee Bacon and son and Mr. W. Bacon Sr. left for Sask. to visit relatives there.

We had the pleasure of having Rev. Ingles' brother attend our church at the Plains last Sunday.

The Roseberry FUA will meet on Nov. 9 in the school. Mrs. Hugh Adams and Mrs. Ralph King hostesses.

Wedding Bells

MOORE — McROBERTS

In a quiet ceremony at the home of Rev. D. K. Allen of Edmonton, Marjorie Evelyn, younger daughter of Mrs. A. R. McRoberts and the late Mr. McRoberts of Irma, became the bride of John Raymond Moore, eldest son of Mr. and Mrs. E. Moore of Toftield. For her marriage the bride chose an afternoon dress of rust-crepe with net bodice and peplum, complemented by rust and green accessories. Her corsage was of red roses and she wore a double strand of pearls, gift of the groom.

The couple's attendants were Mr. and Mrs. R. Stanley Taylor, sister and brother-in-law of the bride.

Following the ceremony Mr. and Mrs. Moore left on a motor trip to Southern Alberta and the U.S. On their return they will reside at Toftield.

RAWLUK — CARTER

A very pretty wedding was held at the St. Thomas Anglican church of Wainwright on Wednesday, Oct. 19, at 1:00 p.m. when Yvonne Rosemary Carter, youngest daughter of Mr. and Mrs. A. E. Carter of Jarow, and George Rawluk, son of Mr. and Mrs. H. Rawluk of New Westminster, B.C., formerly of Jarow.

Rev. Walters performed the ceremony. The bride wore white satin with net over skirt, looped up with pink ribbons, and a floor length veil held in place with roses and lily of the valley. Her only jewelry was a double strand of pearls gift of the groom and she carried a white prayer book decorated with roses and long streamers. This book her mother and three sisters carried when they were married.

Her sister Shirley was bridesmaid. She wore a rust-crepe dress. Marjorie and Patricia Rawluk, nieces of the bride and groom were flower girls dressed in pink and blue floor-length taffeta dresses.

Mr. Mike Rawluk was his brother's best man and Mrs. A. E. Fikus, sister of the groom, played the wedding music.

After the ceremony a reception for friends and relatives was held at the home of the bride's parents. For going away the bride wore a white sabbardine suit with grey accessories and a grey and wine tone coat. After a short motor trip honeymoon the couple will reside on the groom's farm in the Jarow district.

Out of town guests at the wedding were Mr. and Mrs. H. Rawluk of New Westminster, B.C. and Mr. and Mrs. E. Raddatz, and Arthur and Elaine of Arnprior, Ont. Mrs. E. Raddatz is a sister of the bride. Also attending were friends of the family, Mr. and Mrs. Jabbonski of Loughheed.

News Items From Kinsella District

Mr. and Mrs. J. Stevens of Sedgewick were visitors at the home of Mr. and Mrs. R. Stevens during the week.

Mr. and Mrs. G. Conley of Jarow and daughter Morraine of Edmonton visited Mr. and Mrs. J. F. Murray and Mr. and Mrs. T. Oakes on Saturday.

Miss Bella Anderson has been the guest of Mr. and Mrs. O. Olsenberg for a few days.

The Kinsella younger folks have been very busy the last few days, building a skating rink. Three tractors have been kept quite busy, even after dark.

Kinsella School was closed Monday and Tuesday while the teachers attended their convention. Word was received on Saturday by Mrs. Wm. McKee of the birth of a daughter (Jeanette Irving) to Mr. and Mrs. K. McCallum, nee Isabel McKee of Victoria, B.C. A Halloween party sponsored by the W.I. will be held in the Memorial Hall on Saturday afternoon for the ladies and children of Kinsella and district. Ladies please bring lunch.

Mrs. Geo. Likness is home again after spending some time in the Wainwright hospital.

"And Enoch also, the seventh from Adam, prophesied of these, saying, Behold, the Lord cometh with ten thousands of His saints; to execute judgment upon all, and to convince all that are ungodly." Jude 14:15

Everyone is cordially invited to attend.—Rev. R. E. Oswald.

Jarrow News

The Jarow Ladies Aid will meet at the home of Mrs. F. Wright on the afternoon of Nov. 2. Hostesses to be Mrs. N. Stauffer and Mrs. Stan Bridgeman. Members are asked to bring prints suitable for quilt making to this meeting. Visitors are always welcome.

Mr. and Mrs. W. R. Meakins and Shirley Anne were Edmonton visitors last week. Mrs. H. Meakins, Mrs. K. Lingley and Billy accompanied them.

We are happy to report that Mr. Olaf Lovig who has been very ill at the Wainwright hospital, is on the road to recovery.

Mr. and Mrs. Ed Brodus and Olga spent Sunday at the K. K. K. home.

Mr. and Mrs. Arthur Overby motored to Edmonton to spend several days with their daughter, Trilane, who is attending the new Victoria High School this term.

Mr. and Mrs. G. Walker and Roy of Viking visited at the G. Bridgeman of the Batts district on Sunday.

Other Edmonton visitors during the past week were the Oranckes, Mrs. Whidden, Mr. and Mrs. Gordon Whidden and Gail.

Congratulations are extended to the newlyweds, Mr. and Mrs. Geo. Rawluk of the Metropolitan district whose wedding took place last week. A wedding dance in their honor will be held at Jarow Hall, Friday, Oct. 28. Everyone welcome.

Easterly Echoes

Born to Mr. and Mrs. Howard Oldham at the Wainwright hospital on Oct. 12, a daughter.

Mr. and Mrs. Jack Taylor and daughter Shirley, motored to Swift Current to attend the wedding of Miss Violet Funk, Mrs. Taylor's cousin.

We are glad that Mr. Roy Askin is home again after spending some time in the R. C. Alexandra hospital in Edmonton.

Little Myrna Taylor had the misfortune to fall down a flight of stairs last Saturday injuring her elbow.

Mr. and Mrs. Gordon Fenton, Reta, Valda and Ronald attended a Sutherland Family Reunion in the Rainbow Ballroom on Monday.

The Battle River W.I. wish to announce the winner of the quilt was Miss Barbara McFarland and the winner of the best article made from one flour sack was Mrs. Clarke Steele with a drawn work lunch cloth. Runners up in this competition were Mrs. R. Dempsey with a baby dress, Mrs. J. Savard with a little boy's suit and Mrs. H. Morse with a laundry bag. The judges this year were Mrs. W. N. Frickleton and Mrs. W. Mason. The bazaar was all in all very successful and will be at the home of Mrs. W.I. will be at the home of Mrs. R. Dempsey on Thursday, November 3 at 2:30 o'clock. The Roll Call to be answered by My Pet Peeve. Program Committee, Mrs. C. Steele, Mrs. W. Patterson and Mrs. G. Elliott.

Community Cook Book

1 cup suet
1 cup raisins
1 cup currants
1 cup grated potatoes
1 cup grated carrots
1 teaspoon salt
1 teaspoon soda, dissolved in ½ cup Rogers syrup

1 teaspoon vanilla, flour to thicken, not too stiff. Steam 3 hrs. Serve with sauce below.

Sauce

1 cup brown sugar
1 tablespoon butter. Brown in sauce pan, add 2 cups water and thicken with corn starch—Topsy Turvy.

CARROT PUDDING

1 cup Brown Sugar

Farm Incomes Increase

PRICES AND INCOMES HAVE RISEN steadily in Canada during the past few years and the cost of living index has reached record heights. To a large extent these mounting figures have been the result of shortages created during the war when scarcity of labor and materials prevented the production of many necessities of civilian requirements. Since the war, many of these shortages have disappeared, but there has been a sustained demand for the output of our farms and factories. While high prices are not looked upon with favor by consumers, it is agreed that the period since the war has been the most prosperous one in Canada's history.

Drop Noted In Two Provinces

Farm prices have risen in company with those of other products and farm incomes have increased greatly in the last ten years. Recent figures issued by the Dominion Bureau of Statistics show that during the first half of 1949 the cash income of Canadian farmers totalled \$1,056,500,000. In 1940, the cash income from the sale of farm products in Canada was \$766,066,000, for the entire twelve months. For the first six months of 1949, increases in farm income were noted in all provinces but New Brunswick and Prince Edward Island where there were slight drops due to a decrease in the value of potatoes. No figures were given for Newfoundland. Higher prices for calves and cattle swelled the general level of farm income, sales from livestock amounting to \$347,000,000.

Large Sum Paid By Wheat Board

The largest single item in farm income for the first half of this year was the payments made by the Canadian Wheat Board. The board paid Western farmers \$205,000,000 for wheat which much of this was made up of equalization payments to the board since 1945. In addition, prairie farmers received \$9,000,000 under the Prairie Farm Assistance Act which provides cash payments up to \$500 to farmers in districts where the yield of wheat is eight bushels to the acre or less. Rises in farm incomes were recorded for all the prairie provinces. In Saskatchewan there was an increase from \$165,167,000 to \$220,892,000. Manitoba farmers made \$93,089,000, as compared with \$72,943,000 in the first half of 1948, while in Alberta there was an increase from \$165,719,000 to \$207,249,000. There have been times in the past when cash income on the farms has been at very low levels and when returns for this very important work have been small. It has been shown that farmers, as a class, make wise use of their increased earnings in paying off debts and improving their holdings, and it is to be hoped that the price of farm products will continue to remain at levels in keeping with the general trend of business as a whole.

Says Modern Farming Most Hazardous Job On Continent

(By DOUGLAS GREEN, C.P.)

REGINA.—Ever feel like trading that city job for a little farm home in the peaceful prairie west? If so, consider this: Modern farming is one of the most hazardous occupations on the continent. It's always been more or less dangerous. A farmer is liable to be kicked by a startled horse, or to be gored by his bull, or injured in a fall from a stairway, through a trapdoor or from a hayloft.

But the widespread use of machinery — a development particularly marked in the prairie west — has added mechanical to animal and natural dangers.

Saskatchewan, Canada's greatest wheat-growing province, offers an example. It has 120,000 farmers. They own approximately 85,000 tractors and 40,000 combines.

This means that two of every three farms has a tractor, and one farm in every three either owns or has access to a combine. In the United States, tractor accidents make up 28 per cent. of the farm machinery mishaps; it's common for owners to sprain or break their wrists or arms while cranking tractors.

In the U.S., combines and threshing machines account for about one-third as many accidents as tractors, and it's a fair assumption that these accidents are no less frequent in Canada.

Up-to-date figures are difficult to obtain. But during the harvesting season, such accidents in Alberta, Saskatchewan and Manitoba are reported almost daily.

The dominion bureau of statistics, at the request of the federal department of agriculture, prepared a summary which showed that in the sample period June 1946-47, fires and ac-

cidents cost farmers more than 1,000,000 man-days.

In the period under review, about 37,200 persons suffered accidents, more than one third of them severe enough to cause lay-offs of from two to three weeks and 45 per cent. necessitating absences of from three to 10 days.

The bureau found that accidents had permanently incapacitated 400 farm operators and partially disabled 2,100 persons for life.

Still want to farm? Then, says the statistics bureau, go to Quebec. It's relatively the safest province.

The prairies, with about one-third of Canada's farming population, account for about 60 per cent. of the accidents, due to the greater mechanization of agriculture in the west and the consequent added risk involved in working with tractors and complex farm machinery.

B.C. Prospecting Well Maintained

VICTORIA.—Prospecting in British Columbia this year has been well maintained, department of mines officials stated there being 1,052 claims staked in the province for the first seven months, the total for the previous year for the comparative period was 1,636.

Class Eastern Apples As "Appetizers"

OTTAWA.—Members of the Commons entered the chamber recently to find Red McIntosh apples on their desks.

George Furlford (L-Leeds) said the apples had been given him before he left Brockville, Ont. He hoped they would prove that Eastern Ontario apples can stand up with apples from anywhere.

George Cruickshank (L-Fraser Valley), who never loses an opportunity to boost British Columbia fruits, rose with two apples in his hand, a large one and a small one. He said he was thankful for the Ontario apple which could be eaten in anticipation of the larger apples from British Columbia.

To Feel Right — Eat Right

More Attention In Young People's Work At Fairs Is Urged

LETHBRIDGE, Alta.—S. C. Heckbert of Vermilion, Alta., president of the Western Canada Fairs association, told a recent conference of B class fair managers that the group should take a more active interest in young people's work.

"Young people's work is an integral part of fairs," Mr. Heckbert said. "To keep young people interested in farm work, we should take more interest in them and give them greater opportunities to display their handiwork."

ELECTRIC FENCE

Weeds allowed to grow up under an electric fence to touch the wire will ground the fence and reduce its effectiveness.

A Biscuit Meat Roll That's Budget Wise

Delicious... made with MAGIC

Mix and sift into bowl, 2 c. once-sifted pastry flour (or 1½ c. once-sifted hard-wheat flour), 4 tsp. Magic Baking Powder, ½ tsp. salt. Cut in finely 3 lbs. shortening. Make a well in centre, pour in ½ c. milk and mix lightly with a fork. Roll out dough to a 14" thick rectangle, 8½" wide. Mix 1 lb. minced lean beef with 1 tsp. salt, ¼ tsp. pepper, 1 finely-chopped small onion. Spread meat mixture over biscuit dough to within ½" of edges; beginning at one end, roll up like a jelly roll. Place in greased loaf pan (4½" x 8½"). Bake in moderately hot oven, 375° about 1 hour. Serve with heated chili sauce or brown gravy. Yield—4 or 5 servings.

Rubber Company To Build Warehouses In Western Canada

CALGARY.—Firestone Tire & Rubber of Canada, Hamilton, Ont., will build widely in the West, Vice-president T. M. Mayberry announced here. New warehouses are to be built in Regina and Vancouver. In Edmonton, an addition to warehouse and office is planned to start next spring. Main factors in Western expansion of Firestone, according to company officials, are: (a) growth of population and highway traffic, and (b) increased farm mechanization.

Color Changed For New License Plates

NEW WESTMINSTER.—Vehicle license plates in 1950 will be the reverse of those in use in B.C. this year, it was reported. Orders for some 162,000 passenger plates and 59,000 commercial plates are being filled in Oakalla jail workshops with yellow lettering on black.

FUNNY And OTHERWISE

Fortune Teller: "You'll be a victim of much unhappiness and poverty until you are 50."

"And then?"

"After that you won't notice it."

"But I thought I wired you not to bring your mother home with you," said the husband.

"Yes," replied his wife. "That's what she's come to see you about."

Husband: "Are you ready yet, dear?"

Wife: "Honey, I wish you would stop nagging me. I told you an hour ago I'd be ready in a few minutes."

Owner of Midget Car: I want a half a pint of gasoline and a teaspoonful of oil, please.

Garage Mechanic: And shall I cough into the tires, sir?

A railway company advertised for sleepers. Among the replies was "one from a minister. He stated, 'I have 300 in my church. You are welcome to them.'"

The woman lion tamer had the animals under perfect control. At her summons the fiercest lion came meekly to her and took a lump of sugar from her mouth. The circus crowd marvelled—all except one man.

"Anybody could do that," he yelled from the audience.

"Would you dare to do it?" the ringmaster asked scornfully.

"Certainly," replied the heckler. "I can do it just as well as the lion can."

Jones: Look at that bunch of cows!

Smith: Not bunch, herd.

Jones: Heard what?

Smith: Herd of cows.

Jones: Sure, I've heard of cows!

Smith: I mean a cow herd.

Jones: What do I care if a cow heard? I didn't say anything I shouldn't have.

One of the boys went into a neighborhood store the other day and saw a strange woman waiting on a customer at the other end of the store.

"Is that your wife?" he asked the proprietor.

"You don't think I'd hire a clerk that homely, do you?"

Politely she turned down the cake offered her.

"Why don't you eat it?" he asked.

"I have to watch my figure," she smiled.

"AW go ahead and eat it," he smiled back. "I'll watch your figure."

PROTECTING BEAVER

THE P.A.S. Man.—To prevent an animal disease from spreading from Ontario into Manitoba's rich beaver-muskrat country, provincial game officials have ordered a five-mile strip along the provincial border to be trapped clear of beaver. Registered trappers are asked to trap heavily to prevent migration of infected animals westward.

About 2737 B.C., the Chinese emperor Shen Nung wrote a book on pharmacy.

Manitoba's Big Game Hunting Starts Nov. 28

WINNIPEG.—Sunrise Monday, Nov. 28, will mark the opening of the hunting season for big game in Manitoba and it will close at sunset Dec. 8. Hon. J. S. McDiarmid, minister of mines and natural resources, announced.

Deer hunting will be open in all parts of the province with the exception of the big game sanctuaries. The season on moose will open only in that part of the province north of the 53rd parallel.

Barren ground caribou is closed for sport in all parts of the province, but bona fide residents in remote northern areas may apply for special licences to hunt and kill one animal of either sex under the age of one year from Dec. 1 to Dec. 31, inclusive.

There will be no open season on elk and woodland caribou in any part of the province. It is illegal to shoot any big game animal under the age of one year, or any female big game animal except barren ground caribou. A male animal under the age of one year is defined as an animal having horns less than three inches long. Mr. McDiarmid said.

Bag limits for big game hunting are:

Deer: one male Virginia (white tailed) or mule (juniper).

Moose: one male animal.

The holder of a moose license is entitled to take one deer if he fails to take a moose.

MUCH FREIGHT

The harbor of Buffalo handles more than 16,000,000 tons of water-borne freight annually, although it is frozen four or five months of the year.

Is Your Back Aching Today?

When you feel short, sharp twinges with every sudden move—you simply don't feel like working. Ask any housewife how painful it is to iron, sweep, or wash dishes—when her back aches so she can scarcely straighten up.

Many women have found that Dr. Chase's Kidney-Liver Pills bring quick relief from backache because this time-proven Dr. Chase remedy acts on both the kidneys and liver.

For over 50 years, Canadians have used Dr. Chase's Kidney-Liver Pills—for backache and painful joints, kidney and liver disorders and a sluggish system. Try Dr. Chase's Kidney-Liver Pills tonight. At all drug counters, 12.

Ultrasonic Trainers Perfect Bombings

Radarmen Learn Pinpointing Targets Regardless Of Location

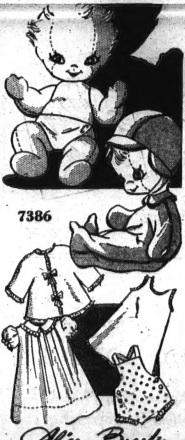

Student operator, at controls, corrects plane course with Ultrasonic Trainer, as he scans scale map.

By ANDREW R. BOONE
(Central Press Canadian Correspondent)

The squadron of heavy bombers roars steadily through the night. Beneath, fog obscures the Atlantic. It moves on across the North Sea, swings in toward England. An hour passes. Eager youngsters, manning the radar scopes, pick up familiar landmarks. The Thames flows across their screens. Greater London is etched on their scopes. They recognize the major outlines, well enough and clearly enough to correct the pilots' courses. Although none has seen England from the air, all these radar operators know London as well as though they had flown many times over the city in broad daylight.

I have selected a friendly target for this dissertation. It could as readily be Paris or Tokyo or Moscow. U.S. radarmen can learn in a few days to recognize both the approaches to these cities and their inner outlines — and never leave North America.

This Is Her Choice

No matter what her age, every little girl especially longs for a baby doll. Here's one with a complete outfit just like a real baby's. A baby doll to dress and cuddle. Pattern 7386 has pattern and directions for 12-inch doll; clothes. To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to Household Arts Department, Winnipeg Newspaper Union, 60 Front Street W., Toronto. Be sure to write plainly your Name, Address and Pattern Number.

Scouts' Short Pants Here To Stay

EDMONTON.—Clothes styles may come and go, but one Boy Scout official believes short pants will remain a part of Scout garb.

B. H. Mortlock of Ottawa, executive commissioner for publications of the Boy Scouts' Association, said abbreviated pants are assured a niche in the men's clothing world because they are part of scouting tradition.

He said there has been some opposition to short pants, but it usually is the Scout Leader who doesn't like wearing them.

Tempe is a famous mountain gorge, about six miles long and 100 to 1,000 paces broad, in the northeast of Thessaly, between the mountains of Olympus and Ossa.

ITS A SORT of scientific ledger-domain. Hundreds of enlisted men today can describe a score of foreign cities in more intimate detail than can most soldiers who have visited them. They get their descriptions from cleverly and accurately made maps. Carborundum crystals take the place of cities and other landmarks.

Not every "flight" carries them into foreign lands. They have to practice first on more familiar runs, whether it be New York City, Montreal or San Francisco.

THE AIRPLANE, a make-believe single-engine dive bomber, consists of a radar-like scanning device whose rotating scanner is immersed in a shallow tank of water. As it moves out over the make-believe Pacific ocean, a pen traces a red line on a sheet of paper stretched under a glass map. An instructor, a veteran radar operator, relays corrections to the pilot, who stands nearby fingering controls. The operator feeds in the machine changes in wind velocity and direction, new compass readings, and changes in course.

The red line seems to crawl forward slowly, for each inch of travel represents slightly more than two miles of flight. Soon the line shows the plane on target. A knob twists, and the red line traces a straight path. After the time required for a real bomb to fall to earth from the theoretical altitude, the line halts briefly. Its end marks the point of hit.

ACTUALLY, these youngsters are learning to pinpoint their radar scopes on targets half way around the world without ever leaving mother earth. Their tools are the indoor radar range and host of electronic equipment. The navy calls the gimmick an ultrasonic trainer. It was developed by the special services branch, office of U.S. naval research. Just what happens inside the miracle machine? Simple, when you know the answer. A pulse from the radar causes a quartz crystal to vibrate, a reflector directs the resulting energy over the map, and echoes bounce back. The echoes produce oscillations, which in turn form a radar picture. However, the students cannot anticipate the pictures they will view. The antenna tilts

Helpful Hints

Be sure to keep cleaning compounds out of the reach of children. Many of them are poisonous.

A windy — but not too windy — sunny day is best for washing blankets, so that they will dry quickly and keep their fluffiness. Hanging too-long in the sun will fade cotton blankets and they scorch woolen ones.

Put a few drops of ammonia in the water in which you wash your hands to remove dairy odors after preparing fish for cooking. Ground mustard, or damp table salt will also remove fish, onion or other disagreeable odors from your hands after handling them. Just rub it on and wash it off.

Smile of the Week—

Two modern youngsters were discussing the subject of piggy banks. "I think it's childish to save money that way," little Mary opined. "I do, too," Annie replied. "And I believe also that it encourages children to become misers." "And that's not the worst of it," Mary exclaimed. "It turns parents into bank-robbers."

up and down; a tiny bit of gauze establishes a storm front when dropped into the water; bits of carborundum suddenly become a convoy of cruisers and tankers. All this is undertaken because the western hemisphere doesn't intend to be caught without trained radar operators.

Timely Advice For Householders Preparing Homes For Winter

These pleasant Autumn months are devoted by the majority of Canadian householders to putting their homes in order for the winter ahead. Much attention is given to windows, particularly in Western Canada where storm winds are a necessity.

If you're planning to check over the windows in your house, look for those that require new putty and re-painting, and remember that putty applied to frosty, wet or dirty sash is not going to form a good bond. Hurried glazing often leads to failure because of improper bedding of glass, or insufficient pressure on the knife to make good contact between the putty and the sash. Take time to blow the dust away and fix the glass firmly with clips or glazing points.

Glazing is a craft that requires the utmost skill, and there are many little tricks that must be observed if the best possible job is to be obtained. For example, water vapor in a heated or tightly closed building condenses on the interior surfaces of cold sash. This condition is a particularly well-known cause for failure of work done in late fall and winter, which means you can't afford to put off the repair job any longer. A damp, closed building is often heated before the putty has had time to set or to receive the first coat of paint.

Remember too that priming is essential for good results on both wood and steel sash. In the absence of a priming paint, a good exterior house paint, thinned according to the manufacturer's directions, may be used. The importance of this priming coat cannot be over emphasized for the priming fills the pores of the wood, preventing the absorption of the oil from the putty which would leave it dry and brittle. In the case of steel sashes, a special primer should be used. This retards the formation of rust that would loosen the bond between the putty and the steel, and also provides the proper "tooth" or roughened surface for good adhesion.

U.S. Apologize To Canadian Co-Ed

Ruth Confort, (left), University of Toronto co-ed, has received an apology from the U.S. state department for being detained on Ellis Island 24 hours. Miss Confort was returning from Holland with a group of Canadian students including Geoffrey Pearson, (right), son of Lester B. Pearson, minister of external affairs, aboard the Dutch steamer Volendam when taken into custody and accused of making an "inflammatory" pro-Communist speech aboard ship. Geoffrey Pearson, a third-year student at Trinity college, also aboard the ship, said "the whole thing was an annoyance because it had to be a speech about the ship evidently in favor of the U.S. The nurse had been unwittingly shut in with a consignment of choice orchids and had tried to survive by eating the plants."

Production Of Alberta Oil Is Doubled

By HUGH BOYD

OTTAWA.—The phenomenal growth of the new central Alberta oil fields, reckoned to be only in their infancy, is graphically illustrated by the latest report from the dominion bureau of statistics on crude oil production. The figures are up to the end of June, the latest month for which statistics have been compiled.

They show that the most recent producing field, Redwater, sprang in one year from zero to a monthly output (by June) almost equal to that of Turner valley, while Leduc has already left Turner valley far behind. The dominant position of Alberta is shown by the fact that for the first six months of 1946, that province produced 9,170,000 barrels of crude petroleum compared with approximately 411,000 for Saskatchewan, in second place. Ontario came third with 113,000 barrels, followed by the Northwest Territories with 109,000.

The Territories had a considerable drop and Ontario a gain from the previous year.

Alberta's total output for the first half of 1946 was more than double that of the corresponding period of 1945, a fact accounted for entirely by the performance in the new, more northerly fields.

The religion of Confucianism has more followers than any other.

WHAT'S NEW IN THIEVERY?

Originality Used By Burglars Today

By JACK OHRMSBEE
(Central Press Canadian Correspondent)

The traditional black mask and a way with jimmies don't get a burglar anywhere these days. Time was when a smooth joint-jacking job was a sure route to front-page headlines. Nowadays it takes originality to keep the second-story man's scrapbook fat. You have to be gracious and ceremonious like the three pros who wouldn't think of touching the till at a night club until their leader had served imported whiskey to the club's patrons and employees — or sentimental like the fellow who stole five autographed baseballs, among other things, from the warehouse of a former major league umpire. Even being bold doesn't help much anymore, unless it is accompanied by a kind of creative agility such as that which was displayed by the three London thieves who removed seven sheets of lead from the roof of the

British museum to the cheers of admiring lunchers. The thieves also paid to show consideration for their victims as the six amateurs who stole a taxi, drove around a while and then finally picked up a hitch hiker — who turned out to be the owner of the cab. Then there were the three celebrants who lifted the brass stand and velvet rope which separates the dance floor from the bar in a metropolitan city's Cafe Society. Walking stiff-leggedly away from the scene of their crime, these culprits loaded their loot into a cab as soon as they had gone a safe distance and instructed the driver to take them some place where they could have some fun. He did. Right back to Cafe Society and the anxious arms of the happy doorman of that spot. Another popular headline-making habit of second-story men is to leave the scene of the crime unmistakable evidence of an unusual housework. The \$10,000 Stradivarius into a dress shop in New York, for instance, and completely ignored the heavy inventory of ladies' wear which almost any husband would classify as serviceable. He stole a single fountain pen got quite a write-up as a dress-hating thief. In one American city the police are still wondering what "fence" would handle the postcards and moustache which were stolen from the office of the daily newspaper. Considerable if anonymous, free radio publicity was generated by the chap who stole the questions and answers to a give-away show from the offices of a certain broadcasting company. It's the twist that does it. To get publicity, be heard, be seen, be in the news, and outwit the other fellow as Waldo the Wise Guy did when he learned in court that the purloined violin which he had pawned for five bucks was a neighbor's, belonging to Sir Edmund Beels, formerly of the London Symphony. This revelation, which would certainly have thrown Jimmy Valentine for a loss, didn't phase Waldo. He demonstrated his versatility as a matchmaker by demonstrating some of the victory-from-the-jaws-of-defeat variety as he made his "last request" of the judge. "Your honor," he said, "I'd sure like to hear Mr. Beels play on this violin." Waldo's applause when Mr. Beels had complied with his request was loud enough to be heard by victim services and the story was circulated from coast to coast. Yes, you must have originality to succeed as a second-story man these days. Even the penalty can sometimes be avoided by outwitting originality. Take the case of the cop who witnessed the theft of a quart of milk from the doorstep of a neighbor and watched the culprit drink the loot yet took no action to enforce the law. The guilty party in this case was a colleague of the cop in a way. A colleague, to be exact. However, no one can say that he wasn't original. That's what counts today, be it a second-story job or only a doorstep operation.

HEALTH

World Need Said Complete Mental, Physical Growth

It is extremely unfortunate "that so many of us believe that the only function of the neck is to separate the mind from body," writes Dr. Griffith Hinning in an article—"School Health Records: How to Keep Track of Growing Children" in Health, Canada's National Health Magazine.

Dr. Hinning, Medical Director of Schools, Saskatoon, Sask., says there is increasing evidence that intelligence is not a static thing, nor should one expect it in childhood. Intelligence increases with age during the growth period at a definitely fixed rate provided adverse factors do not exist.

"When these adverse factors slow mental growth they are also adverse to growth in physical growth," Dr. Hinning writes.

He states that distressing, local, national and world conditions are, when summed up, the result of a world composed of individuals whose growth is immature. The crying need of the world is for populations composed of individuals possessing complete growth, full strength to meet the increasing difficulties of the times.

Health in childhood means intellectual growth, intellectual, physical, mental and emotional growth so that the child can be "big enough" for its tasks which lie ahead. But since growth is a dynamic thing, not static — its measure must be made through use of dynamic methods of measurement, through flow charts which show where the child is now in relation to the past and which will allow deduction where it is heading.

These charts must be simple, so that anyone can understand them; they must be sensitive enough to changes in physical, mental and emotional well-being so that they measure not only the major changes but minor ones as well, if these are affecting well-being.

The writer states that such a study requires a three dimensional chart where two common measurements are combined and then collectively plotted against time. It is his view that there is only one such chart available today — the Wetzel Grid.

Dr. Hinning's article in Health, which is published by the Health League of Canada, is illustrated by charts on which he bases his observations that physical, mental and emotional progress are closely linked. From the standpoint of emotional growth, for instance, he says that every juvenile delinquent shows growth failure usually several years before delinquency begins.

GEMS OF THOUGHT

SUCCESS

If you wish success in life, make perseverance your bosom friend, experience your wise counselor, caution your elder brother, and hope your guardian genius.—Addison.

The talent of success is nothing more than doing what you can do well; and doing well whatever you do, without a thought of fame.

—Longfellow.

Failure is often that early morning hour of darkness which precedes the dawning of the day of success.

—Leigh Mitchell Hodges.

Every failure is a step to success; every detection of what is false directs us toward what is true; every trial exhausts some tempting form of error.—William Whewell.

Success in life depends upon persistent effort, upon the improvement of moments more than upon any other one thing.—Mary Baker Eddy.

It is the old lesson—a worthy purpose, patient energy for its accomplishment, a resoluteness undaunted by difficulties, and then success.

—Furness.

Fall Colors Named For Trees, Fruits

NEW YORK.—The approach of fall has brought forth a whole new palette of colors and shades.

New fabrics and latest designs appear in such shades of red as Flame — preferred by college girls — Raisin and Cranberry, which are softer, muted tones.

Brown comes in all varieties — a dark brown the color of humus, brown with a reddish tint, russet brown and mocha brown. These are blended, contrasted or mixed in coats, suits and dresses.

A new shade of green, called Wintergreen, is verily dead, that of trees silhouetted against the summer sky.

Camel, the color that goes with anything, especially with vivid contrasts, is very pale. It is likely to prove the most popular of the season.

Returning vacationers are being refreshed by a shade of blue called "Spruce Blue". It is very much like slate but softer and lighter.

Teal, another popular member of the blue family, is back again, and will be seen in chilly winter clothes of all kinds.

Sunburst MOTOR COACHES

OUR COMPLETE SHORT STORY

THE GELDING: He Certainly Owed The Gelding A Downright Apology.

By CHAZ LEWIS

YOU take a mule, now," Slim McCordie explained as he snatched open the long blade of his jack-knife, cut himself a sturdy willow switch from the brushy creek bank, and approached the gelding. "—a mule would be too smart to pull a trick like that. He'd know it was plumb useless tryin' to run away while a mower was hooked to his traces!"

McCordie slashed the air a few times to test the whip of the willow switch. It sang wickedly, and the big bay gelding shied around in his harness, the mower wedged between the fence row and the startled brush. "Yup-p-p," grunted McCordie, his lean weather-beaten face grim, his pale blue eyes blazing, "any ol' mule would of knowned better. But you bein' a no-count hoss, you gotta be learned. If it was to let you git by this once, there wouldn't be a piece of machinery left on the place in 30 days."

The willow switch sang, and the gelding jumped. But the whip was a living thing in the thong-like arm of McCordie, and it beat a quick row of corrugated welts across the gelding's quivering rump. The harness creaked and jangled, but there was no escape from the heavy collar and its anchored traces. Froth foamed from the bay's grinding jaws.

"Still ain't got no sense," cracked McCordie. "A mule would stand an take his whippin'. A mule knows who's boss. But a hoss—an' most of all, a gelded hoss—they're like a stalk of wheat without a tassel. An' what's a stalk of wheat without a tassel? Well, it's a mule sprinced cotton in hell, that's what!"

The willow switch stopped singing, and McCordie paused to wipe his forehead. The sun was hot. The alfalfa field stretched a calm unbroken sea before him, with only two small swaths cut around its bulging belly. By eleven he should have made a big dent in the field. The first cut should already lie wilted.

"Sure got no use for a hoss," he grunted again. "Specially a dumb rattle-brained geldin'!"

While he rolled and lit a cigarette, McCordie surveyed the wreckage that was his mower. It was a simple sturdy piece of machinery, built to take the rugged abuse given it by the rolling acres of the back country farms, but the gelding had jammed it into the stand with the force of an express train. The lower arm of the cutting blade was snapped, the big awning levered askew, and the spokes of the big wheel bent.

"Lose the rest of the day gittin' that blade welded an' this whole shebang straightened out," McCordie growled. But he didn't strike the gelding again. Now that the first rush of his temper was past, his anger was replaced with despair, plus a little shame. He threw the willow switch into the brush along the creek and unhooked the gelding's traces, snubbing him to the fence row.

He went back to the mower and after a good deal of tugging and wrenching freed it from the willow stand, pulled it into the open. With his pocket wrench in hand he got down on his knees over the broken cutting blade.

"Well, I'll be danged!" he cried out.

Wedgeed firmly in the teeth of the mower was the shredded remnant of a five-foot rattler, its rattles still rustling like dead leaves pushed by a faint breeze of wind. The snake was caught up directly ahead of where McCordie himself had been walking when the gelding bolted. He wiped the sweat from his brow for the second time within minutes and shook his head.

"Guess I owe that danged geldin' an apology," he grunted. "A dumb ol' mule would've let the step right smack on top that rattler!"

SELECTED

RECIPES

APPLE LOAF

2 cups sifted all-purpose flour
1 teaspoon baking powder
1/2 teaspoon baking soda
1/2 teaspoon salt
1 cup shortening
1/2 cup granulated sugar
2 eggs
1 cup minced apple (fruit put through food chopper without peeling)
1/4 cup chopped nuts
Sift flour and measure; sift again with baking powder, soda and salt. Cream shortening with sugar; blend in eggs and minced apple. Fold in sifted dry ingredients, stirring just enough to moisten. Lastly add chopped nuts.

Bake in well greased loaf pan (8 x 4 inches) in moderate oven (350 deg. F.) for 55 minutes.
This loaf is better if allowed to stand for 24 hours before slicing and is excellent served with cream cheese.

ANTELOPE IN ALBERTA

EDMONTON.—The Cypress Hills region in southern Alberta has more antelope than Saskatchewan and the state of Montana, provincial game officials said here.

GET OWN FARMS

The department of labor reports that at least 250 of the Polish veterans who came to Canadian farms in 1947 are now either operating farms or have well-laid plans for doing so. 2850

Pay Boost For Nurses

WINNIPEG.—Manitoba's practical nurses—there are about 700 in the province—have all been granted a 16 per cent. pay boost under an order-in-council of the Manitoba government, it was announced by the provincial health department. The increase brings the scale of payment for practical nurses to \$4.15 a day for an eight-hour day.

Leap Saves Girl

GREENWOOD.—Crystal Laidman's frantic leap from her bicycle when a load of poles fell off a passing truck saved her life. The 13-year-old daughter of Mr. and Mrs. O. L. Laidman of Boundary Creek was returning from school when the binder chain of an oncoming truck's load of poles gave way. Crystal leaped up an embankment. Her bicycle was demolished.

Trees Save Lives

PALMER, Alaska.—Two Matanuska Valley men survived an emergency landing of their small plane in Alaska's wilderness by using alder trees to cushion the jolt. The pair, Dr. R. E. Garrett and L. C. Stock, a restaurant owner, returned here unhurt.

New Churchill Building

CHURCHILL, Man.—New staff buildings at the port of Churchill which will house 300 men are expected to be completed for winter occupancy.

Seeks Bigger Fish

THE PAS, Man.—Budd Vardaman from Fort Wayne, Ind., who has caught tarpon, swordfish and trout, is out for bigger fish at Churchill. He passed through here on his way to some white whale fishing in Hudson Bay.

Poor Handwriting

VANCOUVER.—Poor handwriting of B.C. school pupils is causing concern to the department of education. In an article in the department publication, British Columbia Schools, H. L. Campbell, assistant superintendent of education, comments that an examination of students' notebooks and papers, at all grade levels, indicates more emphasis should be placed on handwriting.

School Music Popular in Saskatchewan

REGINA.—The new music exploration programme is popular in Saskatchewan schools. R. Staples, supervisor of music for the provincial department of education, said recently. The programme is being used by 63 per cent. of the town, village and rural classrooms in the province. Mr. Staples said a recent survey shows that musical activity has increased in 89 per cent. of the classrooms since 1944, remained unchanged in 5.5 per cent. and decreased in 5.5 per cent.

There is a programme in singing in nearly all the schools. Small instrument activity now includes 45 per cent. of the classrooms. The use of radios, record players and records is five times as great as in 1944.

KIDNEY ACTIVITY VITAL TO HEALTH

Looking For A Better Moose Trap

TERRACE.—Kees Mensink, recently-arrived Dutch settler to this northern B.C. area, 70 miles east of Prince Rupert, is looking for a better moose trap.

He spotted a large bull moose on the road in front of his car and promptly rammed it.

Pausing only long enough to give the animal a second bump when it attempted to rise, Mr. Mensink leaped to the assault with an ax.

But one look at the expression in his victim's eyes caused him to back pedal hurriedly. Fortunately the moose didn't chase the fleeing car.

Mr. Mensink came back later with a friend — to find the moose gone.

253,673, an increase over last year of better than 72,000.

In total attendance, Riding Mountain is second only to Banff.

Man. Tourist Increase Tops All Provinces

WINNIPEG.—Manitoba led all other provinces of the Dominion in its increase of tourist traffic over last year for the first eight months of 1949.

Mines and resources minister J. S. McDiarmid announces this year's figures are 30.4 per cent. above those of last year. Up to Aug. 31 last, 23,738 cars entered Manitoba, with an estimated 80,000 visitors, compared with 17,441 for the same period in 1948. This figure is for cars entering at customs ports on entry along the Manitoba border to stay more than 48 hours.

Persons entering for periods of less than 48 hours by train, air, bus, or from other provinces have not been listed, although their number is estimated at about 210,000.

In increase of its tourist traffic, Alberta is runner-up to Manitoba with an estimated 28.3 per cent. following in order by Saskatchewan, 22.3 per cent.; New Brunswick, 19.9 per cent.; British Columbia, 12.3 per cent.; Quebec, 9.9 per cent. and Ontario, 7.9 per cent. Less significant are decreases of 6.7 per cent. for Nova Scotia, (which gets the bulk of its motor tourists through New Brunswick ports of entry), and of 2.8 per cent. for Yukon territory which gets a relatively small number of motorists from Alaska.

Another tourist traffic record was set by Manitoba's Riding Mountain National Park. Its attendance for the season this year was a record.

Finest Quality—Easy to Use

"SALA" TEA BAGS

SWEETER TASTIER White Bread

Recipe

Measure into large bowl, 1/4 c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Royal Fast Rising Dry Yeast. Let stand 10 min., THEN stir well. Scald 2 c. milk and stir in 5 lbs. granulated sugar, 5 tsp. salt; cool to lukewarm. Add to yeast mixture and stir in 1 1/2 c. lukewarm water. Beat in 6 c. once-sifted bread flour; beat well. Beat in 5 lbs. melted shortening. Work in 6 c. more once-sifted bread flour. Knead until smooth and elastic; place in greased bowl and brush top with melted butter or shortening. Cover and set in warm place, free from draught. Let rise until doubled in bulk. Punch down dough in bowl; grease top, cover and let rise again until about 1/2 as high as first rise. Punch down dough and divide into 4 equal portions; form into smooth balls. Grease tops, cover with cloth; let rest 10-15 min. Shape into loaves; place in greased bread pans. Grease tops, cover and let rise until doubled in bulk. Bake in hot oven, 425°-450° F., 35 min., then reduce heat to moderately hot, 375°, and bake 30-35 minutes longer.

New Fast-Acting Dry Yeast Needs NO Refrigeration!

Thousands of women every week are switching to the new modern Fleischmann's Royal Fast Rising Dry Yeast. It's fast—it's active—keeps for weeks in the cupboard. Perfect results in rolls, buns, breads!

Locals

The Junior Red Cross of grades 4, 5, 6 and 7 have worked hard at the job of serving lunch to the men working on the new school and have sent \$50 to the Crippled Children's hospital in Calgary. Our sincere thanks go to the mothers and friends who have donated cakes. We shall be very glad to receive cakes from any who would care to donate.

Mrs. E. Stockton and Donna spent a few days last week visiting with friends at Wainwright.

Mrs. M. M. Tripp has returned to Irma after a recent visit in Edmonton. However, she tells us she will not be with us long, but will follow her usual custom of going south with the birds for the winter.

Mrs. S. M. Brown and Shirley Mae took a trip to the city last week.

Mr. and Mrs. W. N. Frickelton and family are enjoying a visit from Mr. Frickelton's mother who is here just now enroute from Ontario to Red Deer where she will visit her daughter.

Born to Mr. and Mrs. Howard Oldham at the Wainwright Hospital October 12, a daughter.

Born to Mr. and Mrs. Wm. Ink in at the Viking hospital Thursday, October 20, a son.

Miss Muriel Batstone of Edmonton, a life-long friend of Mrs. J.C. McLean visited with her here last week.

Doreen and Don Simmermon spent several days last week in Edmonton with their brother and sister-in-law, Mr. and Mrs. R. H. Simmermon.

Mrs. Fernie Hockett of Viking, called on old friends here a few days ago while convalescing from an operation in hospital.

Mr. and Mrs. Gordon Whidden and Mrs. M. T. Knudson motored to the city on Monday.

Mr. and Mrs. Ernie Rae and Mr. Jas. Wood motored to Edmonton on Monday last.

Four of our young people who are attending Vermilion School of Agriculture this season are Winnie Thurston, Ronald Currie, Larry Funk and Fred Kivics. These young folks were all members of the Irma Calf Club and are expected to do great things.

Mrs. C. Smallwood had her parents Mr. and Mrs. K. T. Kjos of Cadogan and her sister Mrs. S. Aasen as recent visitors.

The Rev. R. G. Thompson, Sec. of the Associated Temperance Forces of Alberta will address a meeting in the United Church on October 31 at 8 p.m. Educational motion pictures will be shown.

Don't forget the Irma Ladies Aid Bazaar and Tea to be held in Hedley's Hall on Saturday, Nov. 5, at 3 o'clock. There will be a Mystery Table and a White Elephant Table.

BLEAK AUTUMN

I searched for a flower of beauty The trees were bare that day, The air was dreary and chilling, The hillside colorless, grey. In hopeless disappointment I turned in gloom away, And found the cherished treasure In a sorely wounded heart.

— Nancy O. Parke.

In baking with brown sugar all humps should be removed from the sugar before measuring. This may be done with a rolling pin. The sugar should then be packed tightly into the measuring cup.

I'm delivering Electricity to thousands more Alberta farms every year . . .

Already this Company is serving 5,000 Alberta farm families. Included are 33 Rural Electrification Groups. In addition—

19 Rural Electrification Association projects are under actual construction in the following areas:

| | | | |
|---------------|----------------|-----------|--------------|
| Airdrie | Markerville | Park Lake | Rosebud |
| Beiseker | Mountain View | Parkland | Spruce Grove |
| Coaldale | North Eckville | Penhold | Wabash |
| Didsbury West | Okotoks | Ray | West Leduc |
| Lysalta | DeWinton | Ridgewood | West Liberty |

9 Rural Electrification Association projects are already surveyed for co-ops at:

| | | |
|-----------------|----------------|-------------------------|
| Battle River | Brooks-Cassils | Foothills-Simons Valley |
| Blindman Valley | Cremona | Longview |
| Bowden | Evergreen | Raymond |

Actual Construction Work is under way — or will be, at the earliest possible date.
